# BUILDING SYSTEM

## DryTEX Waterproofing Systems

- Advanced Acrylic waterproofing membrane
- Polymerized Cementitious waterproofing
- Polyurethane Waterproofing system
- SBS modified bituminous liquid membrane

## SealFLEX Construction Sealants

- Elastomeric joint sealant
- High build Polysulphide sealants
- High performance Polyurethane sealants
- Bituminous mastic sealants

## Solutions for Repair & Refurbishment

- Rapid setting cement based waterstopping mortars
- Polymer modified fairing coat
- Cementitious non-shrink repair mortar
- Epoxy resin based structural grade mortar

## FloorFORT Industrial Flooring Systems

- High Build Epoxy Coating
- Heavy Duty self-levelling Flooring
- Food Grade Epoxy Flooring
- Hygienic Polyurethane Flooring

## Building Adhesives & Productive Coatings

- Fix-O-Tile - tile adhesives
- D-Fix- bonding adhesives
- TempShield heat resistant coating
- FortFLEX industrial tank lining

## Building Insulation & Geo Synthetics

- Extreme Roof multilayer roof protection system
- ULTRAL EPDM waterproofing membrane
- ULTRAL separation layers and lining
- ACOUSTIC insulation solutions and systems

# Profile

Organix Building System, since decades has built a strong reputation for developing, manufacturing and supplying construction chemicals and systems to the construction, industrial and marine industries offering comprehensive solutions .

Modern techniques and advanced industrial facilities guarantee enhanced formability by committing itself to provide high quality products confirming to the internationally acclaimed standards.

We are committed to consistently meet or exceed our customer's expectations through service orientated principles to achieve technically, environmentally sound, practical and innovative solutions using high quality products and systems.

Organix Building System has been awarded ISO 9001:2015 certificate in recognition to its quality and environmentally standard construction products. Organix Building System have a long, established record of successful quality projects and satisfied customers of which we are extremely proud.

The valuable clients in United Arab Emirates are :-

Abudhabi Municipality, U A E Army, Musanada, ADNOC, Mubadala, Dubai Civil Aviation, Dubai metro, Nakheel , EMAAR , MERAAS , NIC etc

Organix Building System have a good global market for its unique and engineered quality construction products by providing the right engineered solution suitable for the local condition. Service, support, delivery and innovation all lead to the customer satisfaction . ORGANIX technical support team oversee and manage the critical elements to ensure quality project outcomes are consistently achieved.
